

Surface Transportation Reauthorization Bill Funding Requests

Listed below are Congressman Altmire's federal funding requests for the Surface Transportation Authorization bill. This legislation will lay out the federal government's transportation and infrastructure funding priorities for the next five years. As the only western Pennsylvanian on the House Transportation and Infrastructure Committee, Congressman Altmire is working to secure funding that will improve western Pennsylvania's infrastructure and pave the way for our region's long-term economic growth.

It is important to note that all of these requests are still being reviewed by the House Transportation Committee. There is no guarantee that any of these project requests will be funded.
